

## Guide to Transferring a domain name from UKreg/Fasthosts

### .uk Domain Names

1. Go to <http://www.ukreg.co.uk>
2. Click on members log in button
3. Click on configure domains, web hosting and email
4. Select the domain you wish to transfer to daily.co.uk
5. Select to modify the **IPSTAG**
6. Enter **DAILY** as the new TAG holder
7. After 24 hours, or less in most cases (check a whois output to see if the TAG change has taken effect
8. Now, go to daily.co.uk control panel. On the left hand menu select “Domains”, then “Transfers”, then “Transfer to Daily.co.uk”. Enter the domain names you wish to transfer. Alternately, go to:  
<https://www.daily.co.uk/products/domain-names/domain-name-transfer.html>
9. Enter the domain name you wish to transfer.

### .com, .net, .org, .biz, .cc Domain Names

1. Log into your UKreg/Fasthosts Control panel
2. Select the domains you wish to transfer from the domains section
3. Click the All Registry Settings Button
4. Click link to unlock domain and note the authorization code shown
5. If no code is shown add one of your own in the box provided
6. Now, go to daily.co.uk control panel. On the left hand menu select “Domains”, then “Transfers”, then “Transfer to Daily.co.uk”. Enter the domain names you wish to transfer. Alternatively go to:  
<https://www.daily.co.uk/products/domain-names/domain-name-transfer.html>
7. Email [domains@fasthosts.co.uk](mailto:domains@fasthosts.co.uk) with the domain you wish to transfer and the name of the new provider i.e. Daily.co.uk.
- 8.. The Admin contact for the domain will receive an email either from Fasthosts or Tucows to confirm you wish to proceed with the transfer, including the authorisation code.
9. The transfer should complete within 24 – 48 hours.
